IDENTIFIERS	*Florida

ABSTRACT

During the 1983 meeting of the Florida Legislature, action was taken to begin a systematic study of the level of cooperation between the Florida public schools K-12 program and the community and junior colleges. The goals and objectives of the Cooperative Agreements Study were to review and compile a list of the cooperative agreements and identify and distribute information about outstanding programs in order to encourage similar innovative programs. Information was gathered through a series of regional meetings held at five different locations in Florida between January and March 1984, during which selected representatives from each school board and community/junior college provided a listing of agreements in effect between their respective institutions. The study found that: (1) 1,392 cooperative agreements were identified, representing 63 different types of agreements; (2) there was a significant variation in the extent to which cooperative agreements existed between different schools and colleges; (3) some agreements were the result of external direction or encouragement from official sources; and (4) there was significant concern about the dual enrollment program as currently implemented, particularly with respect to funding, site requirements, faculty availability and compensation, transportation, and scheduling. The study report includes detailed results by region. (Author/AYC)

Addenda:

A. External Evaluator's Report

B. Copy of the letter from the Honorable Clark Maxwell, Jr., The Florida Senate setting forth the purpose of the study.

C. Copy of the Specific Appropriations Agreement between the Florida Department of Education and Brevard Community College.

D. Copy of the letter sent to each Community and Junior College President and each of the K-12 School District Superintendents outlining the meetings to survey each institution regarding the number and types of cooperative agreements in effect.

E. Copy of the Cooperative Agreements Study Schedule of Planning and Information meetings held during the period January 31 through February 23, 1984 (five regional meetings).

Copies of the completed Cooperative Agreements Survey documents, by regions, covering all institutions surveyed. These survey documents furnish the supporting detail for data outlined in this report. Chart numbers correspond to geographic regions.

EXECUTIVE SUMMARY

The Cooperative Agreements Study was authorized by the Florida Legislature during the 1983 session. It identifies 1892 agreements existing between School Boards and Community and Junior Colleges and cites several types of agreements that appear to merit further study and dissemination.

Information was gathered through a series of regional meetings held at five different locations in Florida between January and March 1984. Selected representatives of each School Board and of each Community and Junior College participated and provided a listing of agreements in effect between their respective institutions.

The study found that:

1. The 1892 existing agreements represent a total of 63 different types of cooperative arrangements.

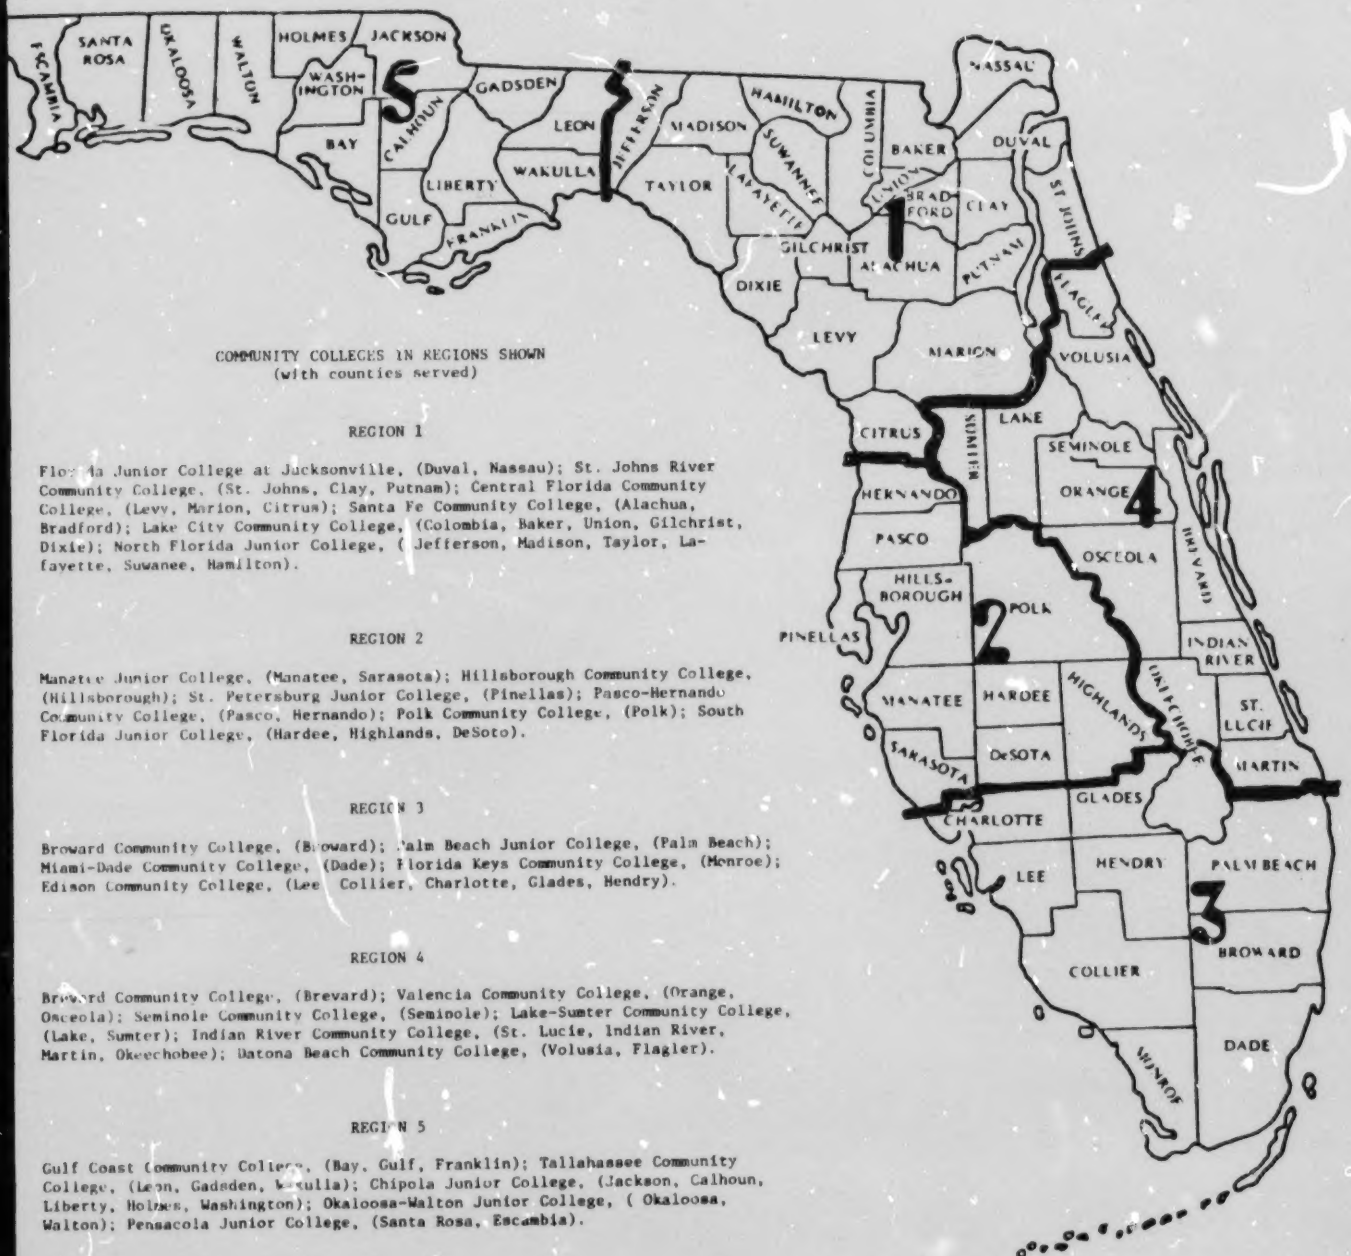
2. There is significant variation in the extent to which cooperative agreements exist between different schools and colleges.

3. Some agreements are the result of external direction or encouragement from official sources.

4. There is significant concern about the dual enrollment program as currently implemented, particularly with respect to funding, site requirements, faculty availability and compensation, transportation and scheduling.

The study represents a preliminary effort to understand the extent and nature of cooperative efforts that result in improved educational services to the public. The evidence confirms that through cooperative agreements, considerable articulation and many practical examples of cost savings can be found throughout the state. The most exemplary of these certainly merit closer examination and greater visibility as models to be followed in areas where additional cost savings and improved operations can be realized.

COOPERATIVE AGREEMENTS STUDY MAP OF REGIONS



COMMUNITY COLLEGES IN REGIONS SHOWN
(with counties served)

REGION 1

Florida Junior College at Jacksonville, (Duval, Nassau); St. Johns River Community College, (St. Johns, Clay, Putnam); Central Florida Community College, (Levy, Marion, Citrus); Santa Fe Community College, (Alachua, Bradford); Lake City Community College, (Colombia, Baker, Union, Gilchrist, Dixie); North Florida Junior College, (Jefferson, Madison, Taylor, Lafayette, Suwanee, Hamilton).

REGION 2

Manatee Junior College, (Manatee, Sarasota); Hillsborough Community College, (Hillsborough); St. Petersburg Junior College, (Pinellas); Pasco-Hernando Community College, (Pasco, Hernando); Polk Community College, (Polk); South Florida Junior College, (Hardee, Highlands, DeSoto).

REGION 3

Broward Community College, (Broward); Palm Beach Junior College, (Palm Beach); Miami-Dade Community College, (Dade); Florida Keys Community College, (Monroe); Edison Community College, (Lee, Collier, Charlotte, Glades, Hendry).

REGION 4

Brevard Community College, (Brevard); Valencia Community College, (Orange, Osceola); Seminole Community College, (Seminole); Lake-Sumter Community College, (Lake, Sumter); Indian River Community College, (St. Lucie, Indian River, Martin, Okeechobee); Datona Beach Community College, (Volusia, Flagler).

REGION 5

Gulf Coast Community College, (Bay, Gulf, Franklin); Tallahassee Community College, (Leon, Gadsden, Wakulla); Chipola Junior College, (Jackson, Calhoun, Liberty, Holmes, Washington); Okaloosa-Walton Junior College, (Okaloosa, Walton); Pensacola Junior College, (Santa Rosa, Escambia).

THE REGIONS SHOWN ON THIS MAP ARE ARBITRARY AND WERE ESTABLISHED ONLY FOR THE CONVENIENCE OF THE COOPERATIVE AGREEMENTS STUDY. THE FIRST COLLEGE LISTED IN EACH REGION SERVED AS THE HOST INSTITUTION FOR A REGIONAL MEETING DURING 1984.

COOPERATIVE AGREEMENTS STUDY REPORT

General Statement of Need for the Study

The need for coordination and articulation between Florida's public K-12 schools and postsecondary institutions has long been recognized as essential to assure that students are provided a coordinated system of support that will enable them to perform at higher qualitative levels. This sentiment is expressed in the introduction to the Postsecondary Education Planning Commission Final Report covering Cooperation Between Postsecondary Education and K-12 Education, published in January 1982. The concerns outlined in that report have frequently been voiced by the Governor and the Legislature over the past several years.

The need for coordination and cooperation between the various elements of education in Florida is also contained in the report "A CALL TO ACTION" prepared by the Academy for Educational Development and submitted to The Joint Legislative and Executive Commission on Postsecondary Education, State of Florida, in December 1979. In this report, under the heading of "State Needs" on pages 28-29, it is stated that, "There are a number of examples in the vocational education arena where local advisory boards have done an excellent job assisting vocational education centers and community colleges identify and respond to local needs." However, since no comprehensive study of these and other cooperative agreements had yet been made, the need has persisted to collect such data. The ultimate need, of course, is to make use of this data to assist educational institutions to improve the services they render to the citizens of Florida in their respective areas of operation.

During the 1983 meeting of the Florida Legislature, therefore, action was taken to begin a systematic study and to develop reliable data concerning the level of cooperation that currently exists between the Florida Public Schools K-12 Program and the Community and Junior Colleges. As a result, the Legislature authorized Specific Appropriation 20-A, Chapter 83-350, Laws of Florida, establishing and funding this Cooperative Agreements Study.

The Goals and Objectives of the Cooperative Agreements Study

The Goals and Objectives of the Cooperative Agreements Study are stated in an agreement between the Florida Department of Education and Brevard Community College, the coordinating institution for the study. They are as follows:

1. Review those cooperative agreements between kindergarten through twelfth grade public education and community and junior colleges presently existing throughout the State;

2. Compile a listing of these agreements in a report to be made available to the various involved legislative committees;

3. Recommend dissemination and publication of those cooperative agreements that have been determined to be outstanding in order to encourage the local school districts and community and junior colleges to form and join in similar innovative programs which will carry out the major goals of stimulating articulation between these two levels of education.

Development and Conduct of the Study

In accordance with the Specific Appropriation Agreement Between the Florida Department of Education and Brevard Community College, the college designated a Study Coordinator to be assisted by the Florida School Boards Association, Inc., whose Executive Director would serve as the principal consultant, Tallahassee Coordinator and linkage with the District School Boards. Other consultants and an External Evaluator

were retained to provide technical advice and assess the study format, reliability and validity. The following individuals were selected to fill the roles outlined above:

Cooperative Agreements Study Coordinator: Mr. Robert Lawton, Director of Educational Research and Planning, Brevard Community College, Cocoa, Florida. Consultant to the Coordinator: Dr. Nicholas A. Beninate, Consultant.

Principal Consultant: Dr. Don Magruder, Executive Director, Florida School Board Association, Inc., Tallahassee, Florida, assisted by Dr. Wayne Blanton, Associate Director.

External Evaluator: Dr. Lucy C. Robinson, Director of Title III Program, Brevard Community College, Cocoa, Florida.

During the period September through December 1983, meetings of the study team were held to review and determine approaches to accomplish the goals and objectives stated in the Specific Appropriation Agreement between the Florida Department of Education and Brevard Community College. A review of School Board Annual Reports and other relevant literature was also conducted during this period.

Following these activities and meetings between staff members of Brevard Community College the Brevard County School Board and the Florida School Boards Association, Inc., the following actions were taken:

1. A matrix was developed as the instrument to be used in the conduct of the survey and data collection phase of this study (See Addenda, Regions 1 - 5);
2. For the purpose of this study the Florida Public School K-12 System and the Community and Junior College systems were grouped into five geographic regions.* Based on these five regions, all

*The geographic regions correspond roughly to the educational regions identified by Florida's Department of Education, however minor variations were made to assure that all county school boards were linked with the appropriate Community and Junior College serving their area.

Public School K-12 School Boards and each Community and Junior College was placed on a matrix format covering the geographic region with which they had been identified.

3. A schedule of Planning and Information Meetings, by regions, was developed and furnished to each Florida School District Superintendent and to each Community and Junior College President. The schedule outlined the purpose of the meetings, the agencies and individuals conducting the survey, the dates, times, and locations for each region's meeting, as well as the School Boards and Community and Junior Colleges being requested to attend each regional meeting. (A copy of the letter and schedule sent to each School District Superintendent and Community and Junior College President is included in the addenda.)

4. Data collection started on January 31, 1984, in a pilot workshop conducted at Brevard Community College with staff members of the Brevard County School Board and Brevard Community College. These individuals reviewed the types of agreements that had been identified on a draft matrix. During this meeting the various staff members in attendance were asked to offer changes or additions to eighteen types of agreements which had been initially identified and listed on the matrix (Chart 1). As a result of this review, Chart 1 was revised to reflect a total of twenty-six types of agreements and was used at the first meeting.

The first regional meeting was held on February 7, 1984, at Florida Junior College, Jacksonville, Florida. During this meeting, representatives attended from the County School Boards and Community and Junior Colleges shown on Chart 1. The administration

and coordination of the survey data collection effort was conducted by the Study Coordinator and staff as well as the staff of the Florida School Boards Association, Inc. During this meeting, the number of agreements expanded to a total of fifty-three different types which were found to be in operation between the School Boards and the Community and Junior Colleges shown on Chart 1. (See Addenda, Region No. 1).

Prior to the second regional meeting on February 14, 1984, the Study Coordinator's staff again revised the matrix (Chart 2) to reflect the additional types of agreements identified at the first regional meeting. Additions were made to update the charts after each of the remaining four regional meetings.

In all, there was a total of seven meetings held covering the five geographic regions, the pilot workshop and a make-up meeting. The meetings were held as follows:

a. January 31, 1984, at Brevard Community College, Cocoa, FL (Pilot Workshop).

b. February 7, 1984, at Florida Junior College, Jacksonville, FL (Region 1).

c. February 14, 1984, at Manatee Junior College, Bradenton, FL (Region 2).

d. February 16, 1984, at Broward Community College, Fort Lauderdale, FL (Region 3).

e. February 21, 1984, at Brevard Community College, Cocoa, FL (Region 4).

f. February 23, 1984, at Gulf Coast Community College, Panama City, FL (Region 5).

g. March 1, 1984, at Valencia Community College, Orlando, FL (Make-up).

The special make-up meeting at Valencia Community College was held to provide an opportunity for input from those individuals from the

County School Boards and the Community and Junior Colleges who had not been able to attend one of the regular regional meetings. The data collected at this special meeting was added to the survey data shown on the charts in Addenda, Regions 1 - 5.

5. The survey data was first collected on a matrix filled out by each County School Board and Community and Junior College representative participating in the survey process. This data was then consolidated ona single matrix, by region, to cover the School Board Districts as well as the Community and Junior Colleges within that region. (See Addenda for detailed survey results by region.)

Participants were asked to identify each agreement as state mandated (required by law or rule), formal (voluntary, but written), or informal (voluntary but not written as a contractual agreement).

Finally, participants were asked to submit, to the Study Coordinator, documentation (and copies where possible) of all agreements they had identified. These materials are still being received as this report is submitted.

Participation by Region

Participation in the survey was excellent. Representatives' attendance by region was as follows:

1. Region No. 1 - there was 100% participation.
2. Region No. 2 - there were three County School Boards that did not send anyone to a regional meeting or mail a survey form as a result of a special mailing requesting that they do so. The Community and Junior Colleges participated 100%.

3. Region No. 3 was the same as Region No. 2. Three School Boards did not furnish survey data, however all of the Community and Junior Colleges participated and furnished survey information.

4. Regions 4 and 5 had 100% participation by the School Boards as well as each of the Community and Junior Colleges.

Recap of Data Furnished by Region

1. Region No. 1 covers those County School Districts and Community and Junior Colleges located in the northeast part of the State. The number of agreements reflected in the survey, Chart 1 (see Addendum Tab Region No. 1) is as follows:

   a. State Mandated agreements 46
   b. Formal agreements 146
   c. Informal agreements 184
   d. Total number of agreements in Region No. 1. . . 376

2. Region No. 2 covers those County School Districts and Community and Junior Colleges located in the west central part of the State. The number of agreements reflected in the survey, Chart 2 (see Addendum Tab Region No. 2) is as follows:

   a. State Mandated agreements 44
   b. Formal agreements 105
   c. Informal agreements 102
   d. Total number of agreements in Region No. 2. . . 251

3. Region No. 3 covers those County School Districts and Community and Junior Colleges located in the southern part of the State. The number of agreements reflected in the survey, Chart 3 (see Addendum Tab Region No. 3) is as follows:

   a. State Mandated agreements 33

   b. Formal agreements 129

   c. Informal agreements 106

   d. Total number of agreements in Region No. 3. . . 268

4. Region No. 4 covers those County School Districts and Community and Junior Colleges located in the east central part of the State. The number of agreements reflected in the survey, Chart 4 (see Addendum Tab Region No. 4) is as follows:

   a. State Mandated agreements 59

   b. Formal agreements 254

   c. Informal agreements 178

   d. Total number of agreements in Region No. 4. . . 491

5. Region No. 5 covers those County School Districts and Community and Junior Colleges located in the northwest part of the State. The number of agreements reflected in the survey, Chart 5 (see Addendum Tab Region No. 5) is as follows:

   a. State Mandated agreements 81

   b. Formal agreements 154

   c. Informal agreements 271

   d. Total number of agreements in Region No. 5. . . 506

6. The Grand Total for the five regions was as follows:

a.	State Mandated agreements	263
b.	Formal agreements	788
c.	Informal agreements	841
d.	Grand Total for all agreements	1,892

The above data indicates that those agreements which were state mandated comprise the smallest number of agreements. Voluntary formal (written) and informal (understood but not contractual) cooperative arrangements produced by far the largest number of agreements.

A review of the voluntary agreements identified in this study suggests that the most common fall into one of the following seven categories:

1. Shared facilities usage
2. Delivery of adult education programs
3. Delivery of vocational education programs
4. Principals and Community and Junior College administrators' meetings
5. Shared institutional research and information about students
6. College night sponsored by School Boards and colleges
7. School Boards and Community and Junior Colleges science fairs

Summary of Findings

1. Participants identified 1892 existing cooperative agreements of sixty-three different types.
2. A number of areas of concern were expressed at all five regional meetings. The most common of these involved:

a. Dual Enrollment. This was a topic that came up at all seven meetings. The discussions centered on two areas which appear to need immediate attention to resolve:

(1) Funding as it relates to an imbalance in the FTE Funding formula for the K-12 program as compared with the Community and Junior Colleges. School Board representatives feel that one half FTE for the K-12 schools is not equitable while the Community and Junior Colleges receive a full FTE funding allowance.

(2) The unintended reduction in the number of students in the dual enrollment program which seems likely in view of the requirement for a seventh period in the high schools. Other conflicts likely to produce reductions were also frequently mentioned. These include class locations, faculty availability and salaries, scheduling problems, fees, and loss of academic and leadership quality in the high schools as well as the possible conflicts with a range of extracurricular activities offered at the high schools.

3. A number of areas where cooperative agreements exist were reported to have been stimulated by recommendations which were made in the Postsecondary Education Planning Commission Final Report titled, "Cooperation Between Postsecondary Education and K-12 Education," dated January 26, 1982. Examples were found to include:

a. Agreements between institutions to establish or expand inservice teacher training programs,

b. Student counseling services being more closely coordinated by a number of institutions,

c. Scholarships or financial aid for gifted students being jointly initiated or expanded by a number of the Community and Junior Colleges and School Boards to benefit greater numbers of selected high school seniors,

d. Efforts on the part of several Community and Junior Colleges to develop or improve the performance tracking of students in conjunction with school systems,

e. More widespread implementation of articulation agreements between Community and Junior Colleges and the K-12 public schools,

f. Increasing attempts to share facilities for a wider variety of purposes,

g. Increasing attempts to work out arrangements for sharing of equipment between Community and Junior Colleges and the School Boards as the cost of new equipment escalates,

h. Specific emphasis being placed on the sharing of computer equipment, in both the administrative and the teaching areas.

Conclusions

1. Significant numbers and types of K-12 and Community or Junior College cooperative agreements were found to exist and have been listed in the study.

2. The numerous cooperative agreements identified appear to represent very worthwhile enhancement of educational services in the areas where they are in effect.

3. Cost-savings as well as improved articulation and operational efficiency are common characteristics of the cooperative agreements reported.

4. The strong interest exhibited by participants from all regions in obtaining greater detail and broader dissemination of information about cooperative agreements suggests that many additional agreements can be implemented. Those already identified seem to have wide applicability and could result in further enhancement of service and operational efficiency.

5. Concerns related to dual enrollment agreements indicate that mandated collaboration must be carefully designed and mutually satisfying to all parties in order to achieve the intended purposes.

6. Study participants have not exhausted all of the possible agreements which may still remain undetected by this study. Additional data is still being received by the Study Coordinator. Because some of this information is new and some is clarification and detail of reported agreements, the study will continue to analyze, compile, catalog and file data until June 1984.

Recommendations

1. The magnitude of the data furnished and the number of documents still being received, suggest that the potential for increased cost-savings and enhanced operations has not been realized and should be pursued further. A suggested initial step is the wide distribution of this report.

2. Comments relating to the dual enrollment agreements should be used by appropriate authority as at least a supporting basis for modifications to current policies.

3. Policy implications of the differences in the degree to which cooperative agreements exist between various locations and institutions should be evaluated by the Postsecondary Education Planning Commission and other agencies as appropriate.

4. The following types of agreements cited in the study should be given priority attention for further review, analysis and possible dissemination as exemplary models to be emulated in areas where they could prove fruitful:

   a. Item 12, Joint Student Surveys

   b. Item 15, Joint Meetings of College Boards and School Boards

   c. Item 18, Talented Students Program

   d. Item 22, Counseling Seminars

   e. Item 26, Shared Institution Research

   f. Item 35, Shared Information on Students

   g. Item 44, College/School Board Joint Cultural Events or Programs

   h. Item 45, College Night Sponsored by School Boards

   i. Item 53, Joint College/School Board Science Fairs

Addendum A

COOPERATIVE AGREEMENTS STUDY

EXTERNAL EVALUATOR REPORT

In the Specific Appropriation Agreement between the Florida Department of Education and Brevard Community College, the College agreed that an External Evaluator would be retained to provide technical advice and assessment of the study format, reliability and validity.

PERFORMANCE RESPONSIBILITIES

During the study, the following are responsibilities which have been performed in cooperation with Mr. Robert E. Lawton, Study Coordinator and Dr. Nicholas A. Beninate, Consultant at Brevard Community College, and with Dr. Wayne Blanton, Associate Director, Florida School Boards Association, Inc., and Dr. Thomas E. Furlong, Assistant Executive Director, Postsecondary Education Planning Commission:

1. Plan the organization of the study
2. Identify the five geographic regions
3. Review the proposed budget
4. Provide liaison with the Office of the Deputy Commissioner of Education, Tallahassee
5. Obtain copies of current articulation agreements and other materials
6. Preview the matrix format
7. Attend regional meetings and follow-up meeting
8. Study matrix forms completed in five regional meetings and the follow-up meeting
9. Participate in interim checks of progress
10. Provide technical assistance in writing draft and final report of the study

OBSERVATIONS

The following observations are noted as a result of attending regional meetings and the follow-up meeting and of studying the matrix forms completed in these meetings:

1. There is considerable interest in the Cooperative Agreements Study as evidenced by attendance and participation in the regional meetings.
2. The construction of the survey instruments was sufficient to elicit the information needed.
3. There are more formal and informal cooperative agreements between School Boards and Community and Junior Colleges than there are state mandated agreements.
4. School administrators expressed some concern about restrictions which they perceive as limitations to full cooperation between School Boards and Community and Junior Colleges.
5. There are some existing cooperative agreements which appear to be innovative and suitable for indepth study.

RECOMMENDATION

1. The Cooperative Agreements Study should be continued for one year to allow for the investigation and documentation of identified innovative agreements.

Lucy C. Robinson
Director, Title III
Brevard Community College

September 25, 1983

Mr. Robert E. Lawton
Director
Educational Research and Planning
Brevard Community College
Cocoa Campus
1519 Clearlake Road
Cocoa, Florida 32922

Dear Mr. Lawton:

This will acknowledge receipt of your letter requesting information developed by the Florida Legislature in establishing the "Cooperative Agreements Study" during the 1983 Legislative Session.

In my opinion, the Legislature intended the following outcomes:

1. To review those cooperative agreements between kindergarten through twelfth grade public education and community and junior colleges presently existing throughout the State;

2. To compile a listing of these agreements in a report to be made available to the various involved legislative committees;

3. To recommend dissemination and publication of those cooperative agreements that have been determined to be outstanding in order to encourage the local school districts and community or junior colleges to form and join in similar innovative programs which will carry out the major goals of stimulating articulation between these two levels of education.

It is our belief that there are many excellent existing programs of cooperation between the K-12 and the community or junior colleges in the State. These programs should be encouraged through review and dissemination.

I hope that this information will be of help to you as you pursue the study.

Sincerely,

Clark Maxwell, Jr.

CMj/ab

Addendum C

SPECIFIC APPROPRIATION AGREEMENT
BETWEEN THE FLORIDA DEPARTMENT OF EDUCATION AND
BREVARD COMMUNITY COLLEGE

THIS AGREEMENT, BY AND BETWEEN THE State of Florida Department of Education (hereinafter referred to as the Department) and Brevard Community College (hereinafter referred to as the College) is for the purpose of conducting a Cooperative Agreements Study pursuant to Specific Appropriation 20A, Chapter 83-350, Laws of Florida. The goals and objectives of the study are to:

1. review those cooperative agreements between kindergarten through twelfth grade public education and community and junior colleges presently existing throughout the state;

2. compile a listing of these agreements in a report to be made available to the various involved legislative committees;

3. recommend dissemination and publication of those cooperative agreements that have been determined to be outstanding in order to encourage the local school districts and community or junior colleges to form and join in similar innovative programs which will carry out the major goals of stimulating articulation between these two levels of education.

NOW THEREFORE, in consideration of the foregoing and of the mutual covenants and promises contained herein, it is agreed to:

I. The College hereby agrees to:

1. furnish a Study Coordinator to provide the administrative direction, organization and control needed to reach the goals and objectives outlined above. Working relationship will be maintained between the College and the Florida School Boards Association, Inc., whose executive Director will serve as the principal consultant, Tallahassee Coordinator and linkage with the District School Boards. An external evaluator will be retained to provide technical advice and assessment of the study format, reliability and validity. The study will be descriptive in nature. Through the use of survey instruments, oral and written communications, meetings and visitations, participants will identify and review existing cooperative agreements, joint ventures and practices, both formal and informal, as they currently exist between K-12 districts and the community colleges. Exemplary practices will be investigated in particular detail to determine the feasibility of using these as models to be replicated in other areas;

2. furnish the office space and furniture needed to house the Coordinator and staff. This will include services and support such as heating, cleaning, telephone, etc. NOTE: The Coordinator, Mr. Robert E. Lawton, will be located in Room 203, Building A, on the Cocoa Campus of the College;

3. provide a fiscal agent for the receipt of funds received through this Specific Appropriation. The President of the College has been designated as the fiscal agent. The Vice President for Business Affairs at the College will be responsible for the receipt and disbursement of funds received. He will work with the Study Coordinator in the development and implementation of the controls and administrative procedures to safeguard and insure proper disbursement of funds received;

4. prepare a report of the Cooperative Agreements Study which shall include the findings, conclusions and recommendations based on study activities. The report will be forwarded to the Senate Education Committee by March 1, 1984.

5. A detailed proposed budget is provided as Appendix I and is incorporated into and made part of this agreement.

II. The Department hereby agrees to:

1. assist the Study Coordinator by providing advice and council when needed.

2. provide information concerning legislative changes which may impact on the goals and objectives of the study.

3. provide payment not to exceed THIRTY-FIVE THOUSAND DOLLARS to Brevard Community College within the terms and conditions of this agreement and pursuant to Specific Appropriation 20A, Chapter 83-350, Laws of Florida, upon approval and signature by the Commissioner.

III. In carrying out this agreement, the College assures that it will abide by the following conditions:

1. This appropriation is made to the College, subject to the laws of the State of Florida.

2. Anything, by whatsoever designation it may be known, that is produced or developed in connection with this appropriation shall be the exclusive property of the State of Florida and may be appropriated, patented, or otherwise restricted as provided by Florida Statutes. Neither the College nor any individual employed under this Agreement shall have any proprietary interest in the product(s) delivered under this appropriation.

3. No travel expenses may be paid to any individual in excess of the amount permitted by Section 112.061, Florida Statutes, and then only when substantiated by receipts as required by State Laws.

4. The College guarantees that no individual shall receive remuneration under this appropriation who is also being paid in any capacity by the State of Florida, except that such individuals may receive remuneration when the College can clearly establish that service is being rendered at such time and location as to be apart from other obligations

of said individuals to the State. The College further agrees in furtherance of its guarantee to the extent permitted by law, to defend any charge of payment of dual compensation and to be held liable for any such amounts paid under this agreement which are included in the Auditor General's audit report.

5. Both parties to the Agreement agree that this appropriation may only be changed or modified by an amendment executed in the same fashion as the original.

6. The College's books and financial records of expenditures and receipts under this Agreement shall be available and subject to inspection and audit by the Department or its designees, including but not limited to the Auditor General. All records shall be kept according to generally accepted accounting principles.

7. The amounts and items reflected herein constitute the total obligation of the Department. The College will be responsible to all third parties with whom it may deal in the performance of this Agreement and shall hold the Department harmless from any claims or damages asserted by third parties.

8. In the event the Governor and Cabinet are required to impose a mandatory reserve or cutback on the 1983-84 Appropriations, this Agreement shall be amended to place in reserve the amount required by such reserve or cutback in the Specific Appropriation.

9. All funds received by the College under this Agreement shall be expended or obligated by June 30, 1984.

For the College:

Dear

Brevard Community College in cooperation with the Florida School Board Association (FSBA) has been selected by the State Department of Education to conduct a Cooperative Agreements Study which was directed by the Florida Legislature during the 1983 Legislative Session.

During the month of February, 1984, staff members from BCC and FSBA, will be conducting a series of planning and information meetings throughout the State. The principal Study Coordinators are Mr. Robert Lawton, Director of Educational Research and Planning at BCC and Dr. Don Magruder, Executive Director of the FSBA.

Five regional meetings will be held for the purpose of:

a. outlining to representatives of each school superintendent and community/junior college president how the Cooperative Agreements Study will be conducted,
b. establishing lines of communication between the study team and the staffs of each superintendent and community/junior college president in the State,
c. providing a format within which participants can expeditiously provide the data needed to prepare a report for the Legislature.

At this time I am requesting that each superintendent and president designate a person to attend a regional meeting and serve as a point of contact for this study. This individual's name and telephone number should be furnished prior to February 3, 1984, to Mr. Lawton at (305) 632-1111, X2240 or SUNCOM 361-2240.

A letter from Senator Clark Maxwell, Jr. is attached and contains his views of the Legislative intent concerning the outcomes of the study. The schedule of regional meetings for February is also attached. Transportation and lunch will be funded from study resources.

In the event your representative cannot attend the meeting scheduled for your region, or if there are questions, you may contact Mr. Lawton at the above number.

Sincerely,

(Signed)

Maxwell C. King
President

Addendum E

COOPERATIVE AGREEMENT STUDY

SCHEDULE OF

PLANNING AND INFORMATION MEETINGS

DURING PERIOD OF

JANUARY 31, 1984

TO

FEBRUARY 23, 1984

Prepared by

Mr. Robert Lawton
Brevard Community College
Study Coordinator

PURPOSE

The purpose of the Planning and Information Meetings is to achieve the goals and objectives outlined in the Cooperative Study Agreement. These are to:

1. review those cooperative agreements between kindergarten through twelfth grade public education and community and junior colleges presently existing throughout the state;

2. compile a listing of these agreements in a report to be made available to the various involved legislative committees; and

3. recommend dissemination and publication of those cooperative agreements that have been determined to be outstanding in order to encourage the local school districts and community or junior colleges to form and join in similar innovative programs which will carry out the major goals of stimulating articulation between these two levels of education.

AGENCIES CONDUCTING THE COOPERATIVE AGREEMENT SURVEY:

Brevard Community College - Mr. Robert Lawton
Director, Educational Research and Planning

Florida School Boards Association - Dr. Don Magruder, Executive Director

DUE DATES

A. Survey data submitted by each School Superintendent and Community/Junior College President.

   1. At each of the regional meetings, all available data will be furnished at that time.

   2. Follow-up data which may be identified as being needed for completion of the study will be furnished by all contact representatives within two weeks after the completion of their regional meeting.

B. Reports to the State Department of Education:

   1. Interim Report: April 13, 1984

   2. Final Report: June 15, 1984

JANUARY 31, 1984 - 1:30 p.m. to 5:00 p.m.

Located at Brevard Community College, Main Administration Building, Board Room 231, Cocoa Campus, Cocoa, Florida. This will be a pilot workshop to review and make any needed changes to the program prior to starting the regular schedule of meetings. Selected staff members of Brevard Community College and the Superintendent of Schoo's of Brevard County will attend this meeting.

FEBRUARY 7, 1984 - 10:00 a.m. to 3:00 p.m.

Located at Florida Junior College, 4th Floor Board Room, Administration Building, 501 West State Street, Jacksonville, Florida.

Request attendance by School District representatives from the following counties: Duval, Nassau, St. Johns, Clay, Putnam, Marion, Levy, Citrus, Alachua, Bradford, Columbia, Baker, Union, Gilchrist, Dixie, Madison, Jefferson, Taylor, Lafayette, Suwannee and Hamilton.

Community/Junior College representatives from the following:

Florida Jr. College at Jacksonville
St. Johns River Community College
Central Florida Community College
Santa Fe Community College
Lake City Community College
North Florida Junior College

FEBRUARY 14, 1984 - 10:00 a.m. to 3:00 p.m.

Located at Manatee Junior College, Room 339-C, Southeast corner of Student Center Building, 5840 - 26th Street West, Bradenton, Florida.

Request attendance by School District representatives from the following counties: Manatee, Sarasota, Hillsborough, Pinellas, Pasco, Hernando, Polk, Hardee, Highlands and DeSoto.

Community/Junior College representatives from the following:

Manatee Junior College
Hillsborough Community College
St. Petersburg Junior College
Pasco Hernando Community College
Polk Community College
South Florida Junior College

FEBRUARY 16, 1984 - 10:00 a.m. to 3:00 p.m.

Located at Broward Community College, Central Campus, Ralph R. Bailey Concert Hall (Bldg. 4) - Curran Room, 3501 S.W. Davie Road, Fort Lauderdale, Florida.

Request attendance by School District representatives from the following counties: Broward, Palm Beach, Dade, Monroe, Lee, Collier, Charlotte, Glades and Hendry.

Community/Junior College representatives from the following:

Broward Community College
Palm Beach Community College
Miami-Dade Community College
Florida Keys Community College
Edison Community College

FEBRUARY 21, 1984 - 10:00 a.m. to 3:00 p.m.

Located at Brevard Community College, Administration Board Room (Bldg. A), Cocoa Campus, 1519 Clearlake Road, Cocoa, Florida.

Request attendance by School District representatives from the following counties: Brevard, Orange, Osceola, Seminole, Lake, Sumter, St. Lucie, Indian River, Martin, Okeechobee, Volusia and Flagler.

Community/Junior College representatives from the following:

Brevard Community College
Valencia Community College
Seminole Community College
Lake-Sumter Community College
Indian River Community College
Daytona Beach Community College

FEBRUARY 23, 1984 - 10:00 a.m. to 3:00 p.m.

Located at Gulf Coast Community College, Gardiner Seminar (room adjacent to the Administration Bldg.), 5230 W. Highway 98, Panama City, Florida.

Request attendance by School District representatives from the following counties: Bay, Gulf, Franklin, Leon, Gadsden, Wakulla, Jackson, Calhoun, Liberty, Holmes, Washington, Okaloosa, Walton, Santa Rosa and Escambia.

Community/Junior College representatives from the following:

Gulf Coast Community College
Tallahassee Community College
Chipola Junior College
Okaloosa-Walton Junior College
Pensacola Junior College

NOTE: If, for any reason, the representative of any College or School District is unable to attend the meeting as scheduled, it is requested that you contact Mr. Robert Lawton, Study Coordinator, Brevard Community College, (305) 632-1111, Ext. 2240, to arrange for attendance at one of the other meetings.
